

Interpreting Circle Graphs (B)

Answer the questions about the circle graph.

Land Area of Continents

As a percentage of the total land area of the Earth.

Source of data: <http://en.wikipedia.org/wiki/Continents>

- ① What are the largest and smallest continents?
- ② What percentage of the world's land area is made up of the Americas?
- ③ What is larger: Africa or Australia, Europe and Antarctica put together?
- ④ If the land area of Africa is about 30 million square kilometers, what is the approximate land area of the Earth?
- ⑤ Is the size of the continent related to the number of people who live on that continent? Explain your answer.
